NUMBER 12

MAYOR TALCOTT TO BE ARMISTICE PROGRAM SPEAKER

Coming from Waukegan to
Address Observance
Planned by Legion

Mayor Mancell Talcott of Waukegan will be the speaker at an Armistice Day program to be held in the auditorium of Antioch Township High school Thursday afternoon, at 2 o'clock. The American Legion post of Antioch is sponsoring the observance, in co-operation with the schools and the Legion auxiliary.

The program is being held on the 10th rather than on Armistice Day proper because there will be no school on Thursday, and the Legion is anxious to have the young people participate in the "Americanization Program" as this year's observance is being termed.

The High School band and Glee club will give patriotic selections. Mrs. G. W. Jensen is to sing "In Flanders Fields," accompanied at the piano by Jean Abt.

The Legion is also endeavoring to get the Waukegan Junior Legion drum and bugle corps here for that day.

PLAN EDUCATION WEEK PROGRAMS

Local Groups Will Join in
Observance; School to
Hold "Open House"

Antioch Graded school will observe National Education Week with an "Open House" for parents and friends of pupils all day Tuesday.

Visitors may come in the morning and spend the day in the various class rooms, or may "drop in" for a few minutes at any time they desire, according to the principal, R. E. Claiborn.

Classes and all other school activities will be conducted as usual, so that parents may have an opportunity to see them in actual operation.

Other local organizations will also co-operate in observance of the week. "American Education Week" was first observed under national auspices in 1921. It is sponsored by the National Education association and the Americanization committee of the American Legion.

William S. Regan Is Visitor Here This Week

William S. Regan, special deputy collector of internal revenue with headquarters in Washington, D. C., is spending a few days this week here with his mother, Mrs. Alice Regan.

Regan was for several years employed in the regional office of Carter H. Harrison in Chicago. He earned a promotion through his ability and was called to Washington.

In the performance of his duties he has traveled extensively throughout the United States and only recently returned from a trip to the far west.

Tells of Work Done for Ill. Crippled Children

The purpose and necessity of the work her department does for crippled children in the state of Illinois were explained by Beatrice Bozarth, orthopedic field nurse for Lake county, in a talk she gave at the "Guest Night" program sponsored by the Channel Lake Community club Friday evening at the school.

About 50 persons were present to hear the program and join in the evening's events, which included buncos, pinocle, and other games, followed with refreshments.

The announcement was made at the meeting that Miss Bozarth's services as a speaker are available at school events, to further the interests of her department.

Body of Henry Mogenson Recovered at Fox Lake

The body of Henry Mogenson, 36, who was drowned in Fox Lake on Tuesday, Oct. 18, was recovered by fishermen Friday morning at 9 o'clock when they were pulling in their nets.

Mogenson had been employed at the Mineola hotel, owned by Mrs. Emma Howard, for the past five years.

At the time of his death he had been working to remove a bog from alongside the pier at the hotel. He was drowned when he toppled from his rowboat into the water.

Many Attend G.O.P. Rally Here Saturday

Five Hundred Assemble to
Hear Candidates, Hold
Social Evening

An unqualified success, with more than 500 persons in attendance, was the Republican rally held in the Danish hall Saturday evening.

County candidates were present and were introduced, and in addition to the political aspects of the evening dancing and a luncheon were enjoyed. C. K. Anderson, committeeman for precinct 1, and James Stearns, committeeman for precinct 2, were in charge of the affair.

A rally was also held by the Young Republicans.

Lyons Given Ovation

Richard J. Lyons, Republican candidate for United States senator, received an ovation at what was called "the greatest political rally ever held indoors in Cook county," Tuesday evening at the Coliseum in Chicago.

An audience of more than 12,000, including many who were standing for lack of seats, applauded as Lyons declared against communism.

Lyons declared that the Democratic party is receiving the support of the communists, and that Earl Browder, head of the communist party, is coming to Chicago Friday to urge the victory of the Democratic slate.

Republicans have planned a huge "homecoming" demonstration for Lyons when he ends his cyclonic campaign at Libertyville Monday night, Nov. 7. He will be greeted with a torchlight parade and caravans of automobiles that will tour the country throughout the afternoon, starting in Waukegan at 1 o'clock.

Dance Rally Saturday

Another Republican windup affair will be staged Saturday night at a county-wide dance rally in the Waukegan Roller Rink. On Thursday night a county-wide rally for youth-fellers will be held in the Grayslake Graded school with Earl DeLong and Stephen A. Day, nominee for congressman-at-large, as the headliners.

Republican spokesmen this week are pointing out that Lake county voters can demand a change from New Deal dissatisfaction by supporting such Republicans as Lyons, Day and Cong. Ralph E. Church, as well as county candidates.

Disclaim "Isms"

Meanwhile Democratic nominees have been actively campaigning in Lake county, and interest in victory has also been kept at a high pitch among their party members.

Any connection with "isms" was disclaimed by Joseph F. Elward, Democratic nominee for congress in the Tenth district, who asserts, "There is no place in this country for fascism or communism. It is my purpose to work out the problems of the American people under our own democratic form of government and under our present Constitution."

Congressman Scott W. Lucas, nominee for United States senator on the Democratic ticket, also disclaimed any connection with communistic support.

JAMES P. JOHNSON DIES IN CHICAGO

Well Known Bluff Lake
Man Passes Away Oct.
27; Burial Here

Three many friends of James P. Johnson of Bluff Lake will regret the news of his death on Thursday, Oct. 27, in Chicago. Formerly in the resort business, he has of late years divided his time between Bluff Lake and Roseland, Florida.

Private services were held in the chapel at 320 North Central avenue, Chicago, with the Rev. W. I. Caughran officiating. Interment was at Antioch cemetery.

Mr. Johnson is survived by his wife; by two sons, Frank J. of Janesville, Wis., and Oliver G. of Clintonville, Wis.; two daughters, Mrs. W. R. Arthur of Janesville, and Mrs. E. E. Kretschmer of Chicago, and four grandchildren. Two sisters surviving are Mrs. John Couter of Toledo, Ohio, and Mrs. Ernest L. Clark of Antioch.

Elward to Be Speaker Friday for Democrats

Joseph F. Elward, Democratic candidate for congress from the Tenth district, will be the speaker at a Democratic rally to be held in the Danish hall Friday evening at 8 o'clock.

All Lake county candidates are expected to be present.

Dancing, good music and refreshments will be a part of the evening's entertainment.

HUGHES, ELWARD AND M'MILLEN TO HEADLINE DEMOCRATIC POWWOW

Party to Hold Final Big
Rally at Danish Hall
Friday Night

Secretary of State Edward J. Hughes, the Hon. Joseph F. Elward, candidate for congress from his district, and the locally prominent Jim McMillen, candidate for Lake county treasurer, will headline the final big Democratic rally to be staged here tomorrow (Friday) night in Danish hall. All the county Democratic candidates will attend.

There will be free refreshments, and an orchestra has been hired to play for the dancing.

Democratic leaders throughout the county are exultant over the decision of Wilbur Glenn Voliva, Zionist leader, to swing his support to their ticket, and they are predicting the election of two or three of their candidates by overwhelming majorities. While contending that Republicans are discounting Voliva's strength, Democrats recall that in former years they were forced to stand by and watch the devastation as "the gravel train from Zion," as Voliva's pool of votes was called, rolled over and destroyed the chances of their candidates. The Zionist leader is said to control about 1,100 votes which Democratic leaders declare is more than enough to wipe out the G. O. P. advantage enjoyed in former years.

Democratic candidates will close their campaigning with meetings on Sunday, party leaders said, although there is a possibility that there will be a sort of a "pep" meeting in Waukegan Monday night.

"JAMBOREE" HELD MONDAY DELIGHTS KIDDIES, ADULTS

Clever Costumes Are Worn
by 250 Children Taking
Part in Parade

Fifty-four prizes were presented to costume winners in the Halloween parade for Antioch village and township children Monday evening. In addition, each of the 250 youngsters taking part was presented with a nemiento, such as candy or a toy.

The parade led from the Graded school along Main street to the Antioch theatre, where the judging took place and where the youngsters were guests for a showing of Sonja Henie's picture, "Lucky Star."

Many of the costumes worn by the little participants were clever and ingenious, and some of the most attractive were viewed with admiring comments by the grown-ups who gathered to watch along the parade line.

Fifth Annual One

The "jamboree," the fifth annual one to be held in the village, was staged under the co-operative auspices of the schools, the merchants, the Antioch News, the Antioch theatre and the Lions club.

The Lions club, which took part as an organization, donated the prizes and also made arrangements for traffic control during the parade.

Fred B. Swanson, owner of the Antioch theatre, acted as host for the theatre party and R. E. Claiborn was in charge of the parade.

Rod & Gun Club Plans "Sportsmen's Rally Day"

The annual "Rally Day for Sportsmen" will be observed by the Antioch Rod and Gun club with a meeting Monday, Nov. 7, at 8 o'clock in the High School auditorium.

A fine program, including motion pictures and talks, has been arranged, and the meeting is being opened to the public.

Three reels of pictures on game birds will be shown, with special emphasis on ducks and pheasants.

Refreshments will be served and each member will be privileged to invite men and women friends to attend. The program is expected to give an excellent opportunity to see what sportsmen are doing in the field of conservation.

Bowling Tourney

The tenth annual state tournament of the Illinois Woman's Bowling association will be held in Waukegan starting Friday, Dec. 2, at the Recreation alleys.

UNTIE HIM!

Mrs. Richey Is Chosen Head of Home Ec. Group

Illinois Association Elects
Antioch Woman as Its
President at Meet

Mrs. Ruby Richey, home economics instructor at Antioch Township High school, was elected state president of the Illinois Home Economics association at its annual conference, last week in Peoria.

She was chosen by unanimous vote to the office which she will hold for the next two years. During the past year Mrs. Richey has been second vice-president of the state organization.

The Illinois Home Economics association has a membership of more than 800 home economists, and consists of five sections: a college section, high school division, home workers' section, and business and institutional sections.

Mrs. Richey served as chairman of the high school division in 1931.

Was Vocational President

She has also been active in allied lines of interest, and was state president of the Illinois Vocational Home Making Teachers' association.

Mrs. Richey holds a Master of Arts degree from Columbia university, having received it in 1932.

She spent the summers of 1935, 36 and 37 as acting head of the home economics department at Western State Teachers' college, Macomb, Ill. During the past summer she taught in the home economics department at Northern State Teachers' college, Marquette, Mich.

AUXILIARY PLANS DISTRICT MEETING

Antioch Organization Will
Send Delegates to
Waukegan Nov. 9

Delegates and visitors from the Antioch American Legion auxiliary will attend a district meeting to be held at Waukegan Wednesday evening, Nov. 9.

On Sunday morning auxiliary as well as Legion members will attend Armistice services to be held at the Methodist church, in a body.

Three candidates were initiated into membership in the auxiliary at a meeting held Friday evening at the home of Mrs. Otto Klass.

After the business period the evening was spent in playing cards. Refreshments were served by the committee, Mmes. Klass, Erna Powles, Walter Hills and Frank Harden.

The organization's next meeting will be held the evening of Nov. 25, in the American Legion home.

The auxiliary is co-operating with the Legion in sponsoring the Armistice Day program at the high school Thursday, Nov. 10.

Woman's Club Will Hold "Guest Day" Next Monday

Lorraine L. Blair, executive director of the Woman's Finance Forum, will be the speaker at a "Guest Day" meeting to be held by the Antioch Woman's club Monday, Nov. 7, at the Methodist church.

Her subject will be "Finances." Hostesses will be Mmes. Harry Hand, B. R. Burke, Amos P. Bratrud, Joseph Horton, William Rosing, Melvin Stillson.

AMERICA LAND OF OPPORTUNITY, CARLSTROM SAYS

Masons Hear Former At-
torney General at Past-
masters' Night Dinner

Advantages such as no other country offers are available to the average person in America, Oscar Carlstrom, former attorney general of Illinois, told the members and guests of Sequoia Lodge No. 287 at their annual observance of "Pastmasters' Night," Tuesday evening in the Masonic hall.

Charles J. Rettner, Chicago, right eminent past grand commander of the Knights Templar for Illinois, was a guest of honor and was also called upon for a few words of greeting.

Covers were laid for 100, including many Masons from out-of-town chapters, at the 6:30 o'clock banquet.

Mr. Carlstrom, who has long been regarded as one of the State's leading orators, chose as his topic "Patriotism and Americanism."

Tells Own Experiences

Illustrating it from experiences in his own life, he told how his father had come as an immigrant from Sweden. From circumstances not perhaps as favorable or as easy as those of many American boys, Carlstrom himself rose to the position of attorney general, and was a candidate for the office of governor of Illinois in 1936.

Carlstrom pointed out that this career would not have been possible were it not for the opportunities which America gave him. His talk was presented in forceful and interesting fashion and was heard with close attention.

Arrangements for the program and banquet were carried on by a committee of which Worshipful Master Emil Lubkeman was the head.

The dinner was served by members of Eastern Star chapter No. 428.

Previous to the dinner, Carlstrom visited with his friend, Fred B. Swanson of Antioch, who was instrumental in arranging for his coming here as a speaker. Mr. Rettner was also a guest of Mr. Swanson.

FORMER ANTIOCH RESIDENT DIES

Tracy Davis Succumbs to
Injuries Received in
Accident Oct. 23

Tracy Davis, 52, died in the Woodstock hospital Wednesday morning at 5 o'clock from injuries received in an automobile accident Sunday, Oct. 23, near Crystal Lake. An open verdict was returned at a coroner's inquest conducted yesterday.

Davis was a former resident of Antioch, having been engaged in the contracting business. He left here several years ago and was building a new home in Woodstock.

Surviving are his wife, three sons, John, Donald and Alfred, and two daughters, Gladys and Frances.

Funeral services will be held Friday at 2 p. m. at the home, 422 East Jackson street, in Woodstock.

Burial will be in Wauconda cemetery.

FORMER MAINE GOVERNOR AIDS RALPH CHURCH

Ralph Brewster, Now Con-
gressman, Hits New Deal
Rubber Stamps

"It is of dire importance to re-elect Congressman Ralph Church," Cong. Ralph Brewster of Maine told 1600 residents along the north shore while campaigning in Lake county last Wednesday. Voters were warned against returning to congress any candidate sponsored by New Deal Democrats.

"Cong. Church should be re-elected," the Maine Congressman said. "I have seen him work in Washington and he is decidedly not one of the rubber stamps of the administration. He has made himself valuable to the nation, not only by his regular attendance and attention to detail, but by his exposure of unethical practices. We need more men of his caliber in Washington and I know we will get them at the coming elections throughout the nation."

Sees Swing to GOP

Cong. Brewster pointed out that he has been traveling throughout several states in recent weeks and has noticed a definite swing away from candidates sponsored by the Roosevelt administration.

"If you send to congress more New Deal sponsored Democrats," he warned, "they will merely be rubber stamps of the administration and will only renew the President's attempt to pack the supreme court—instead of leaving legislation to the checks and balances of congressmen and senators. That's one more reason why you should not only send Cong. Church back to Washington, but a mighty good reason why you should elect Richard J. Lyons as your senator."

Cong. Brewster explained that the Republicans stood for progressive legislation that was entirely within the Constitution. He listed the number of laws stricken by the supreme court that the New Dealers attempted to put over.

"The Republican party is committed to restore business confidence," he said. "And in so doing, it intends to restore the working people of this country to jobs in private enterprise."

The Maine Congressman spoke before groups in Highland Park, Highland, Waukegan and Winthrop Harbor.

Aids Lake Region Projects

In addition to Church's legislative work in Washington, it was through his efforts that the Great Lakes Naval Training Station was re-opened, and he was instrumental in securing federal funds for projects in this immediate locality, including funds for construction of a school auditorium-gymnasium for Lake Villa; the construction of a grade school at Fox Lake, and he also interested the federal government in co-operating with the state of Illinois in improving the Chain of Lakes area. Some of this work is now in progress.

Aged Laborer Ends Own Life Sunday

John Georges, 68, committed suicide while despondent over his inability to find work, was the verdict of the coroner's jury at an inquest held late Sunday.

Georges had hung himself from a tree in the 900 block of Victoria street Sunday morning.

He had been doing odd jobs in the lakes region here for nearly 30 years. At the close of this year's resort season he had secured odd jobs to maintain himself until three weeks ago.

The body was discovered by Robert Wilton, who rose early Sunday morning, and Matt Sorenson. They immediately summoned Dr. D. N. Deering, who pronounced him dead, and Peter Petersen, village marshal.

The remains were removed to Strang's Funeral home, where services were conducted Tuesday afternoon at 2 o'clock by the Rev. W. C. Henslee. The body was interred at Home Oaks cemetery.

Georges was not known to have any relatives in this country. Papers found among his effects indicated that he was born in the principality of Luxembourg, in Europe.

Injured in Collision Sunday at Round Lake

Henrietta Coats, Round Lake, suffered bruises when the car in which she was riding with William Brown of the same village collided with another car driven by Leon A. Ekman, Chicago, Sunday at Round Lake. Ekman was charged with reckless driving and was released on bail for a hearing on Nov. 5.

THURSDAY, NOVEMBER 3, 1938

A Strange Parallel

A Kentucky community closed its schools, stores and factories the other day when all its citizens and hundreds from neighboring communities celebrated the fifteenth anniversary of the opening of the world's first continuous rolling steel mill there. There were parades, banquets and other festivities as the community paid tribute to its leading industry.

Strangely, almost at the same time, the National Labor Relations Board in Washington was castigating the proprietors of the same steel mill and alleging they were guilty of unfair labor practices. The allegations had been laid before the board by labor agitators.

This is indeed a strange parallel and it would seem unreasonable to believe that the community would declare a holiday to celebrate the occasion if there was any ill feeling between the employer and the employees. The community, after all, is made up principally of employees of the American Rolling Mill Co. If they hadn't thought well of their employer there just would not have been a celebration.

In Virginia they celebrate apple and tobacco crops; in Georgia the peach crops are honored; in Iowa, corn; in Michigan, cherries; Maine, potatoes, and so on down the line. This tribute to an industry is a new one, however, but it is a healthy sign. As the editor of the newspaper in the steel town declared:

"It is about time the people of this country begin to realize that we all harvest a crop from industry just as we do from the soil."

Utopia or Bust!

A new fangled idea for solving some of the current social problems has been evolved by the Agricultural Department, we hear. The idea seems to be that meats, fruits, vegetables, etc., will have two price tags. One price will be that to be charged relievers and the low income group. The other will be the price to be charged the middle and higher income groups.

No one will take issue with the theorists on the ground that persons with low incomes should eat as well as anyone else. There is room aplenty for argument in the method, however.

Under the plan, farm subsidies will be continued to keep farm prices up—meaning of course that food prices will also stay up. Another subsidy would then go into

operation to lower the prices to a chosen group. In both cases, tax dollars would be used for "jacks." One tax jack will be pushing one way, and another tax jack the other way. It will be a simple operation for everyone but the taxpayer.

Confusion will reign, too, for the merchant. He won't know, without identification of his customers by some official tag or card, what price to charge. Being accustomed to confusion by now, however, the business man is expected to be able to bear the new burden, we suppose.

This may be another step toward the Utopia we hear so much about, but the ice seems to be getting thinner as we go along.

You Would Never Guess It!

One of the young men of the Washington "Brain Trust" glibly announces that all they have been up to in imposing one restrictive measure after another upon farmers, industry and workers is to keep America from falling into the paths of regimentation.

From this it would follow that the NRA, the AAA, the Guffey Act, the Supreme Court Bill, the Government Reorganization Bill, and those measures that the "Brain Trust" hopes yet to inflict upon a long-suffering country, are intended to keep us away from regimentation.

If that is so, then maybe the moon is made of green cheese.

Farming for Profit

One of the major services performed by the leading farm marketing cooperatives has been to lead the farmer away from the appealing mirage of governmental aid.

The marketing cooperatives know that organized agriculture which sells through a central organization, sticks together and applies business methods to every phase of its business, needs a minimum of government help. More and more farmers, who are enlisted in the marketing co-ops for profit, are coming to this view. That is progress.

Now in Force

The Federal Wage-Hour law is now an effective fact. It has been talked about for so long that everybody should know what it is all about. The Act specifies 25 cents an hour as the minimum wage in each industry, to be reached as rapidly as possible. Carrying out this intent, the enforcement of the act will proceed very slowly inasmuch as it will have to wait on different industrial committees.

Discovery

An explorer says that wolf meat is very nourishing. And we've had a good meal on our doorstep all this time without knowing it.

LAKE VILLA

Lake Villa Community Church
I. B. Allen, Pastor

The church building has been much improved by the paint, and the parsonage is now being renewed. This

Why They Are Nipponese

The people of Japan are called Nipponese because "Nippon" is the name by which Japan is known to its inhabitants. Sometimes the name "Nippon" is restricted to the mainland or the island of Honshu, which is the largest island and the one on which Tokyo is situated.

Longest Canal in World

The Grand canal in China is one of the earliest and in many respects the greatest engineering work ever accomplished. It is the longest canal in the world, reaching 1,000 miles from Peking (Peiping) to Hangchow.

Gladiolus From Latin

The name gladiolus is from the Latin gladius, meaning a sword, and the flower was formerly called the sword lily.

Thought, Speech and Action

Man's natural powers are commonly exercised in the three main forms of thought, speech and action.

Large Auction

Having rented a small farm I will dispose of my entire herd of cattle, chickens, and most of my machinery, which I have listed below on farm, take Hwy. 45 going north, turn east on Hwy. 43 to Co. Trunk N.

FRIDAY, NOV. 4

Commencing at 12:30 sharp

33 Cattle — Holsteins, Guernseys, Brown Swiss
6 Fresh milkers, 2 with calf by side; 6 due to freshen soon; 5 milking good! 5 heifers—2 yrs old; 10 heifers—6 mos. to 1 yr.; 1 Brown Swiss bull—3 yrs old. These cows had a 358-lb. herd average, 4% test.
2 GOOD WORK HORSES, Wt. 2600

300 CHICKENS

125 1-yr. Leghorn hens, 125 white Leghorn pullets, 50 Buff Orp. pullets

FARM MACHINERY

McCormick corn binder; McCormick mower; Van Brunt grain seeder; IHC sulky cultivator; 6-ft. Bradley tandem disc; Case corn planter; 2 sec. drag; 8-in. feed grinder; steel wagon; silo wagon; wood wheel wagon; wagon rack; land roller; bob sleigh; set of harness; 1 new Prima double unit milking machine, pipe for 24 cows; 10 milk cans; 3-burner oil stove; round oak heater; victrola heater; many other articles too numerous to mention.

FARM PRODUCE

500 bu. oats; 10 tons millet hay; 5 tons timothy hay; 35 tons soy beans; 1000 baskets corn; 3 acres evergreen sweet corn fodder in shock; 15 ft. silage.

TERMS—\$25.00 and under, cash; over that amount 6 mos. credit will be given on good approved notes at 6% interest, 1/4 of the purchase price to be paid in cash, our monthly payment plan.

THE ANTIOCH NEWS, ANTIOCH, ILLINOIS

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

BY HAROLD L. LUNDQUIST, D. D.
Dean of The Moody Bible Institute
of Chicago.
© Western Newspaper Union.

Lesson for November 6 HONORING OUR PARENTS

LESSON TEXT—Exodus 20:12; Luke 2:44-52; John 19:26, 27; Ephesians 6:1-4.
GOLDEN TEXT—Honor thy father and thy mother; that thy days may be long upon the land which the Lord thy God giveth thee.—Exodus 20:12.

The splendid obedience of parents to their children has been pointed out as one of the remarkable developments of modern life. No, we have not made a mistake in writing or in typesetting. We mean just what we say—the obedience of parents to their children. In all too many homes God's order has been reversed and instead of honoring and obeying their parents, children (both young and old) have taken the place of "boss," and mother and father must obey if they want peace and rest.

The need for our lesson of today is both great and acute. The future happiness of hundreds of thousands of children (Eph. 6:3) and the present welfare of thousands of neglected and boss-ridden parents will depend on the intelligence and faithfulness with which this lesson is taught in our churches, and the honesty of heart with which men and women study and receive its truth.

I. The Command of God (Exod. 20:12).

The first and most important consideration to come before us is—what is the mind and will of the Maker of us all regarding this matter of the relation between parents and children? His words are plain—we are to "honor" our fathers and our mothers.

The word "honor" carries with it a great many things, but perhaps the three outstanding elements are respect, obedience, and affection. We should look up to them with high regard, obey them as long as they have the authority over us, and show true affection for them.

II. The Example of Jesus (Luke 2:46-52).

The fact that Jesus was God manifest in the flesh only enhances the glory of His conduct. He who is divine presents an example of obedience and consideration both as boy and man which we do well to emulate.

1. As a boy (Luke 2:46-52). The boy Jesus, increasing "in wisdom and stature and in favor with God and man," (v. 52) had come to His twelfth year and with His parents had gone up to Jerusalem to celebrate the Passover. There moved in His heart the conviction that He must now be about His Father's business—an altogether proper and commendable purpose but one which resulted for the moment in separation from His parents. This was far more serious than a physical separation, for we read that they did not understand Him (v. 50). Tragic indeed are the consequences of our failure to understand our children. Notice, however, that Jesus did not withdraw Himself from their watch care, nor refuse to obey them even though they failed to understand Him. Equally tragic are the results of hasty and bitter separations brought about by the disobedience of children.

2. As a man (John 19:26, 27). The value of our lesson will be greatly reduced if we see only the responsibility of children while they are young. We are the children of our parents as long as we and they live. Being grown up and having a family of one's own does not relieve one of the precious responsibility of care for one's parents. Jesus was dying on the cross, His brethren apparently still regarded Him in unbelief, and His mother now needed a son to care for her. Even in His dying agony Jesus remembers to commit her to the care of His beloved disciple, John. One marvels at the carelessness and hardness of heart that will permit men and women who have time and money for everything else and yet will neglect their aged parents and even shunt them off into a public institution for care. Notice the promise that accompanies the command of God (Exod. 20:12; Eph. 6:3). If that is the reward of those who do right, what do you think will be the punishment of those who disobey God?

III. The Admonition of Paul (Eph. 6:1-4).

This matter of honoring and obeying parents "is right," says Paul. It is the Lord's way. Only if parents command their children to do wickedness would there be ground for disobedience to parents. Apart from such circumstances every parent has the right to expect the child's obedience.

There is tremendously important truth on the other side of the picture. Parents are not to provoke their children to anger, to disrespect or disobedience. How much we need God's grace at that point. It is so easy to say and do things that needlessly irritate our children. It is so convenient to nag at a careless child. Often we expect more of them than their age will justify. We are apt to punish them in a spirit of anger or revenge and thus to destroy the value of discipline. May God help us, who are parents, that we may take to heart this part of our lesson. Our children are our most valuable possession.

Candidates in Tuesday's General Election

Political futures of these men rest with the voters in Tuesday's (NOVEMBER 8) election. Top row, left to right: Thomas E. Dewey, Republican gubernatorial candidate in New York; Richard Lyons, Illinois G. O. P. senatorial candidate; Sheridan Downey, California's Democratic senatorial nominee. Bottom, left to right: Leverett Saltonstall, Massachusetts G. O. P. gubernatorial candidate; Harold Stassen, G. O. P. candidate for governor of Minnesota; Gov. Philip LaFollette, who stakes his national Progressive party's future on re-election in Wisconsin.

TREVOR

Mr. and Mrs. Alvin Moran are the parents of a son born Wednesday. William Boersma was a caller in Antioch Wednesday.

Mrs. David Elfers attended the Legion Auxiliary meeting in Burlington Wednesday evening. Hiram Patrick called on Elbert Kennedy at Wilmot on Sunday afternoon. Shirley Schmidt is home from school with chickenpox.

Mrs. William Boersma entertained her card club of three tables at her home on Wednesday afternoon. Mrs. Joseph Smith will be hostess to the

club this week Wednesday afternoon. Mrs. William Kruckman and daughter, Mrs. Ed Eisenbart, Burlington, called on her father, Hiram Patrick, and aunt, Miss Sarah Patrick, Sunday. A number from Trevor and vicinity attended the card party at the Wilmot gymnasium Friday evening.

Mr. and Mrs. Elmer Fleming and children were Sunday dinner guests at the Fleming home, Burlington. R. C. Thorn, Neenah, Wis., was a Trevor caller Saturday in interest of the Soo Line.

Mr. and Howard Mathews, Oak Park, visited Mrs. Mathews' parents, Mr. and Mrs. Charles Oetting, Friday

night, enroute to Madison Saturday to attend the homecoming. Her brother, Louis Oetting, accompanied them to attend the football game.

The Trevor school children and their mothers held a joint Halloween and homecoming party in honor of their teacher, William Fox, on Monday after school. Mr. Fox returned to his school duties Monday morning.

Mr. and Mrs. Ernst Streeker and daughter, Lois, Chicago, spent Sunday with their nephew and niece, Mr. and Mrs. Harry Dexter.

Mr. and Mrs. William Boersma, Jr., left Friday on an auto trip to Minnesota, returning home Tuesday.

Mrs. M. Johnson, Mrs. Ada Flood and friend, Cicero, Ill., were Saturday callers on Mrs. Johnson's parents, Mr. and Mrs. A. J. Baethke. Saturday callers were Mr. and Mrs. Ole Beckgaard, daughter, Betty, Florence Christensen and Niels Thomsen, Racine.

Mr. and Mrs. Harry Elfers and Mr. and Mrs. Elmer Elfers were Kenosha visitors Saturday.

Dempster Dole, Jerry, Indiana, is visiting his uncle, Raymond Dole.

The Oetting family held their family reunion at the Frank Larwin hotel on Sunday. There were one hundred present.

Guitar of Oriental Origin

The popularity of the guitar has kept alive over 4,000 years. Of Oriental origin, it was used by old Egyptians, fell from favor in the Roman era, and then popped up again in Spain, Italy and other Latin countries. Henry VIII, a song writer and musician, as well as king of England, owned four guitars and called them "Spanish viols."

The Klondike

The Klondike is a more or less indefinite district in Yukon territory in northwestern Canada. It borders on Alaska and lies chiefly south of the Klondike river, which flows into the Yukon from the east at Dawson City.

Keep America the
Best Country in the World

ELECT
Joseph F.
ELWARD
Democratic Nominee

for

Congress

10th District

LIBERAL - PROGRESSIVE
INDEPENDENT

"The Candidate with
the Constructive Platform"

The Fords Tell Their Plans for 1939

IF WE KNEW anything better we could do for the country than make good motor cars, we would do it.

By every one doing his best in the job he thinks most useful, this country is going to regain its momentum. We have tried to do our best in our job.

When business was suddenly halted in its recovery more than a year ago, we determined that we should keep going anyway, if not at full-volume motor car production, then at getting ready for greater motor car values that would help future production.

EXPANDING FOR THE FUTURE

We began to build 34 million dollars' worth of new plants and equipment. We felt that if we could not employ all our men building motor cars, we would employ as many as we could building better production facilities.

We were told, of course, that this was no time for expansion, that a wiser business policy would be to "hold everything"—which means, stop everything. But no one ever got anywhere standing still.

Besides, we are not defeatists. We do not believe this country has seen its best days. We believe this country is yet in the infancy of its growth. We believe that every atom of faith invested in our Country and our People will be amply justified by the future. We believe America is just beginning. Never yet have our People seen real Prosperity. Never yet have we seen adequate Production. But we shall see it! That is the assurance in which we have built.

Business is not just coming back. It will have to be brought back. That is now becoming well understood in this country; for that reason 1939 will be a co-operative year. Manufacturers, sellers and buyers will co-operate to bring back the business that is waiting to be brought back.

This construction program is almost completed. It has increased activity and payrolls in a number of related industries. It has given us better facilities for building better cars and trucks, and eventually our new tractor which is being perfected.

THIS MEANS MORE VALUE

The current program has provided a new tire plant, which will turn out a part of our tire requirements... a new tool and die plant that will help us cut the cost of dies... and a steel-press plant that will enable us to make more of our own automobile bodies. These are in addition to the plants we already had for producing glass, iron, steel, plastics, and many other things.

We don't supply all our own needs, of course, and never expect to. The Ford engine is one thing

Henry and Edsel Ford, on the occasion of the 35th anniversary of the founding of the Ford Motor Company, June 16, 1938

that no one's hand touches but ours. Of nearly everything else we use we build some quantity ourselves, to find, if possible, better and more economical ways of doing it. The experience and knowledge we gain are freely shared with our suppliers, and with other industries.

We take no profit on anything we make for ourselves and sell to ourselves. Every operation, from the Ford ships which first bring iron ore to the Rouge, is figured at accurate cost. The only profit is on the finished result—the car or truck as it comes off the line. Some years, there is no profit for us. But we see to it that our customers always profit. A basic article of our business creed is that no sale is economically constructive unless it profits the buyer as much as or more than the seller.

Our new plants have helped us build more value into all our cars for 1939. That means more profit on the purchase to the purchaser.

We have not cut quality to reduce costs. We simply will not build anything inferior.

NEW TESTING EQUIPMENT

While we were putting up new plants to produce cars, we constructed new equipment to test them. The first weather tunnel of its kind ever built for automobile research went into operation at our laboratories this year.

It makes any kind of weather to order. The weather it delivers every day would take months to find in Nature. Our cars are weather-tested to give you good service in any climate anywhere.

In other tests, every part of the car is punished unmercifully. Then our engineers tear it down to see if they can find abnormal wear or any sign of weakness.

The money we spend on tests saves you money on repairs. And your family car is safer and more dependable when we put it in your hands.

THE NEW CARS

We have two new Ford cars for 1939—better cars and better looking—but we also have an entirely new car.

It's called the Mercury 8. It fits into our line between the De Luxe Ford and the Lincoln-Zephyr. It is larger than the Ford, with 116-inch wheelbase, hydraulic brakes, and a new 95-horsepower V-type 8-cylinder engine.

We know that our 1939 cars are cars of good quality. We think they're fine values in their price classes.

With new cars, new plants, new equipment, the whole Ford organization is geared to go forward.

THINK! ACT! LET'S ALL JOIN HANDS IN THE INTEREST OF GOOD GOVERNMENT!

Robert P. Sullivan
FOR
County Judge

Robert P. Sullivan in his campaign for election as county judge is making it clear to the citizens of Lake county that, if elected, he will not permit party politics to play any part in his conduct of the county court.

He also pledges that he will insist upon honest elections and that he will appoint only those persons to the board of review who qualify beyond all question to pass upon the assessments of taxes on property owners, whether they be rich or poor.

A resident of Prairie View, Mr. Sullivan was graduated from the Harvard Law school. Subsequently he became an instructor at St. John's Military Academy, Delafield, Wis., where he taught civics and history.

The statutes wisely provide that a county judge may be retired after a period of years on a pension which is ample for his needs. The present county judge although believed to be a man of much means is qualified for this pension.

"If elected," Mr. Sullivan says "I will conduct the affairs of this office justly, honestly and efficiently. I will not permit politics to enter upon the affairs of this court."

ELECT THESE MEN

☒ **SCOTT W. LUCAS**
For United States Senator

Scott W. Lucas during his years in public office has always followed his own convictions. As a member of congress he has at all times championed the cause of the small business man, the worker and the low salaried man and the farmer.

His candidacy has been endorsed by business, labor and agricultural organizations as an exponent of the objects and principles of each.

A war veteran and former commander of the state department of the American Legion his devotion to true American principles in government is well known. There is in him not a trace of bigotry or ill-will for any class of people. He is dead earnest when he says:

I am opposed to communism, Fascism, or any other "ism" effecting government except Americanism. I can have no truck with dictatorship, here or abroad."

James McMillen
FOR
County Treasurer

Although Jim has attained international fame as an athlete he regards his achievements during his senior years at the University of Illinois as being outstanding in his career.

His unusual mental and physical capacity was proven in that year when although he attained all-American distinction as a football player and successfully defended his title as an inter-collegiate mat champion he also, by hard studying, graduated with one of the highest scholastic ratings in his class.

A practical dirt farmer Jim owns and personally operates one of the most successful farms in Lake county. This with ownership of a number of valuable pieces of business properties in his home community of Antioch makes him one of Lake county's largest taxpayers.

"If I am elected," he says "I will strive to make everyone who cast their ballot for me proud of their choice. I will work to make all remember my term in office as one of honesty, and efficiency."

Philip W. Yager, as a candidate for the office of judge of the probate court, is well equipped by education, and with a well balanced temperament to hold this important office.

Mr. Yager graduated from Carleton College with a degree of bachelor of arts and obtained his law training in the Northwestern University Law school from which he was graduated with a degree of doctor of jurisprudence. Formerly a member of the law firm of Chetlain and Yager with offices in Chicago he has maintained an office under his own name at 7 So. County st., Waukegan, since July of 1937.

A resident of Waukegan since birth this young man early attracted attention for his sterling qualities, his high character and his scholastic abilities.

"If elected," he says "I will enter upon the duties of this office with the thought of keeping humanitarian ideals ever uppermost in my work. I will at all times follow the principles of protecting the rights and interests of all citizens, fortunate or unfortunate, to the fullest degree."

Phillip W. Yager
FOR
Judge of the
Probate Court

Charles F. Heblor
FOR
Clerk of the
Probate Court

Good citizen ship is akin to good government. Good citizens always make good public officials.

Charles F. Heblor of North Chicago is known to the people of Lake county and especially to his neighbors as a good citizen of high moral character and many capabilities. His popularity was proven six years ago when as one of the pioneer candidates of the revived Democratic party he came within an ace of defeating the then most dependable vote getter in the Republican party for the office of clerk of the circuit court.

He will give to the office of clerk of the probate court the same conscientious and honest effort that he has exerted in his every day life. He will enter office with the belief that there should be but one type of government—honest government.

"Some candidates for public office lose sight of the fact that politics is, in fact, a high expression of principle," Mr. Heblor says. "They permit their greed for personal gain to outweigh principle. I know that every candidate on the Democratic ticket is in accord with the pledge of the party to give the people of Lake county a clean and honest administration."

Russ Alford
FOR
County Clerk

Perhaps the greatest compliment that has been paid to the record established by Russ Alford during his first term in the office of county clerk of Lake county lies in the efforts of his opponents to tear it down.

But like the character of this winner public official his record is unassailable.

As a candidate for reelection Mr. Alford can point to his first term in office as being an example of the utmost in honesty and efficiency. He has fulfilled every pledge that he made to the voters in his first campaign.

"Every candidate on the Democratic ticket," He says "is running on a platform of cleanliness, decency and efficiency in public office. We intend to adhere to those principles."

The Record of Bart Tyrrell as a crime investigator and as a fearless and honest law enforcement officer is well known to the citizens of Lake county.

The practices resorted to in the last campaign and election of sheriff to prevent him from assuming this office are still ringing in the minds of citizens of Lake county.

He will not have such conditions to contend with in this election. There is every indication that he will be elected by a large majority of votes that will preclude any doubt as to the outcome.

"My election as sheriff of Lake county," he discloses "would be made much easier if I would consent to bow to the dictates of those who desire to run the office of sheriff. This I refuse to do. I will be subservient in this office only to the wishes of the law abiding citizens of Lake county."

Bart Tyrrell
FOR
SHERIFF

T. Arthur Simpson
FOR
Superintendent
of Schools

It is not necessary to introduce the name or achievements of T. Arthur Simpson to the thousands of men and women of Lake county who owe the high standards of their elementary education to the competency, ingenuity and tireless energy of this veteran educator.

His record as an educator attained during the many years that he served as superintendent of schools of Lake county won for him an appointment as state assistant superintendent of instruction. As head of the Lake county schools he won the distinction of having developed more rural schools into the class known as "Superior" schools than any other county superintendent of county schools in the state.

Mr. Simpson intends to use his recognized ability in again placing the rural schools of Lake county in the forefront of the vanguard of such educational institutions in the state.

"This movement for good government is the healthiest thing that has happened in Lake county in a generation," Mr. Simpson says.

These Candidates Believe Our Local Government Needs A Housecleaning, an independent audit and inventory, and a frank disclosure of the cause for constant increase in local taxation.

To make sure your vote is counted, mark your cross in the ☒ Democratic Circle.

THURSDAY, NOVEMBER 3, 1938

THE ANTIOCH NEWS, ANTIOCH, ILLINOIS

MILLBURN

Word was received Sunday morning of the death of Mrs. A. W. Safford, which occurred at the home of her daughter, Mrs. R. L. Wheaton in Wheaton, Ill., where she had been cared for during her last illness of several months. Mrs. Safford was the wife of the late Rev. A. W. Safford who was pastor of Millburn church from 1906 to 1920. She is survived by her son, Rev. George Safford, and two daughters, Mrs. Wheaton and Miss Helen Safford of Chicago, and her sister, Miss Clara J. Foote. Funeral services were held from the funeral home in Wheaton on Tuesday afternoon with burial in Wheaton cemetery.

Mr. and Mrs. Frank Kennedy of Waukegan were supper guests at the Guy Hughes home Friday.

Mr. and Mrs. Herrick drove to Cedar Rapids, Iowa, Monday, returning Tuesday with Mr. Herrick's father, who will spend a few weeks with them.

Mr. and Mrs. Earl Kane, Jr., of Diamond Lake entertained thirty relatives and friends from Waukegan, Gurnee, McHenry and Millburn last Tuesday evening, Oct. 28th, in honor of the 27th wedding anniversary of Mr. and Mrs. J. S. Denman.

Sidney Rommel of Waukegan spent several days at the Lewis Bauman home.

Mr. and Mrs. Joe Hauser and daughter of Zion and Arthur Hauser of Kenosha were callers at the Frank Hauser home Sunday.

Mrs. Eva E. Alling and Mr. and Mrs. D. B. Webb called on Mrs. Alice Fenlon of Grayslake and Mr. and Mrs. W. D. Kennedy of Wauconda Sunday afternoon.

Mrs. Janet Eddy and daughter, Mrs. Minnie Dietmeyer and family moved on Friday to the house recently vacated by Mr. Koops on the McCarthy farm.

Mrs. William Heintz and family of LaSalle, Ill., spent Wednesday with her sister, Mrs. J. Kaluf.

Geraldine Bonner of Urbana spent the week-end with her parents, Mr. and Mrs. L. S. Bonner.

Mrs. Frank Kennedy of Waukegan spent Thursday with Mrs. E. A. Martin.

The annual bazaar of Millburn church will be held Friday evening, Nov. 4th, with roast chicken supper from 5 o'clock on, in the church dining room and bazaar in Masonic Hall.

Mrs. George White is general chairman of the affair with Mrs. Gordon Bonner and Mrs. Carl Anderson co-chairmen in the church kitchen, and Mrs. O. L. Hollenbeck in Hall kitchen. Mrs. F. G. Edwards and Mrs. Lyman Thain co-chairmen in the dining room with Mr. and Mrs. Her-

EX-GOVERNOR HELPS CHURCH

(Waukegan News-Sun Photo)

Former Gov. Ralph Brewster of Maine, now a congressman from that state, toured the north shore last Wednesday with Congressman Ralph Church, Republican candidate for re-election. Above the two congressmen (Brewster on the left) are talking over the political situation at a Highland Park meeting.

Sleeplessness and Insanity
Ancient Chinese torturers discovered that a man becomes insane after the fifth or sixth day of sleeplessness and dies after 10 days of no sleep.

Many Birds in Jamaica
People who visit Jamaica may see as many as 50 different kinds of birds. There are many species of butterflies in Jamaica.

rick in charge of waiters and Phil Anderson in charge of seating. Mrs. Lewis Bauman is in charge of coffee. Mrs. W. A. Bonner is chairman of fancy work, Mrs. McAllister Irving, candy, Mrs. W. M. Bonner, bakery and vegetables, Mrs. Ida Truax, grab-bag, and Mr. and Mrs. Harrie Tillotson, ice cream. Mrs. E. A. Martin is in charge of tickets.

Gordon Bonner spent Friday at DeKalb attending the State Holstein sale.

How the Kangaroo Fights
Normally the kangaroo is as peaceful and harmless as a lamb, but when hunted by dogs he is likely to turn and attack. The 'roo generally backs up to a tree or rock, the dog jumps for a throat-hold and promptly is encompassed in short, strong forelegs. Then with his powerful hind legs, ending in a wicked claw, the kangaroo proceeds to rip the dog's hide. At other times the 'roo will stand in a pool of water, seize the dog as it dashes to the attack and hold it under water until the last gasp. The "Old Man" Kangaroo may be eight or nine feet tall when standing on its toes, but the species comes in many sizes down to specimens measured in inches.

Tower Built for Prestige
The famous Tower of London was originally built by the Norman conquerors to overawe the citizens of London.

Butternut, Native Tree;

Prized by the Pioneers

The butternut is a native tree, little cultivated but of great use and value. The ash-colored bark is furrowed longitudinally in rather even ridges and its leaves are the largest of any North country tree. They are compound, being made up from 11 to 19 leaflets, and are often over 18 inches in length. They ripen and drop earlier than do those of any other tree. So loosely are the leaflets attached that they are frequently blown off while the long midribs remains attached to the branch. In the spring butternuts are very late opening out their leaves.

The winter buds of a butternut are large and interesting to examine, observes a writer in the Rural New-Yorker. Beneath each one is a horse-shaped scar where the midrib of last year's leaf was attached. Covering the buds are big scales which peel backwards as the bud expands in opening.

The sap of the tree is very sweet and makes a delicious syrup. It will not harden into sugar, however, as the maple does.

The nuts are large and are covered with a thick, hard shell inside a husk. The pioneers wore shirts of linsy-woolsey which were dyed with butternut husks. The nut meats are very rich in oil and have a delicious flavor.

The early settlers supposed the butternut oil to have medicinal uses. This they learned from the Indians.

Not First Dictionary

Contrary to general belief, even among scholars, Dr. Samuel Johnson's "Dictionary," which was compiled about 1750, was not the first dictionary of the English language—although it was by far the best one ever produced at that time. The first compilation of this sort, says Pearson's London Weekly, was "The English Dictionary," in 1523, by the lexicographer Henry Cockeram. Before this, in 1604, Robert Cawdrey had compiled a "Table Alphabeticall of Hard Words," but this was hardly a dictionary in the sense that Cockeram's was. Cockeram, in his dictionary, urged young writers "to acquire a learned style by looking up the simple words" they knew and to "find synonyms of such length as to astonish their readers."

Weight of American Lobsters

Although the average weight of the matured American lobster is about 2 pounds, there are records of 13 of them that weighed more than 20 pounds each, one of which, the largest known, tipped the scales at 35 pounds. It was caught off Atlantic Highlands, N. J., in 1897, says Collier's Weekly, and is on exhibition in the American Museum of Natural History in New York city.

"Give The Working Man, Business and Agriculture a Chance"

—LAKE COUNTY REPUBLICAN CENTRAL COMMITTEE—

Air-Conditioning to Be Year-Round Joy

University of Illinois Engineers Study Subject.

URBANA-CHAMPAIGN, ILL.—When year-around air-conditioning becomes as common as winter heating is today, many of the agencies prominent in improving heating will also be found to have been prominent in developing 12-month air-control. In the forefront of these is the University of Illinois.

Results of research by Illinois engineers is embodied in practically every new heating installation made today. This work, begun at Illinois some two decades ago, is continuing, and right along with it is going research extending air-conditioning from a winter-time job to a year-around control.

Not only are engineers working on the mechanical side of air conditioning, but physicians in the college of medicine are studying its effects upon humans and utilizing it in their studies. Likewise, college of agriculture scientists, placing animals in air-conditioned chambers, are learning facts about life processes of great value to humans.

Five Factors Involved.

Complete air conditioning, explain the University of Illinois engineers, involves five factors:

1. Summer cooling and winter warming.
2. Summer dehumidification and winter humidification.
3. Circulation of the air.
4. Removal of dust and odors.
5. Introduction and conditioning of outdoor air.

For student training and for research, they have built a special piece of apparatus in which these factors can be varied and handled in various manners. This 42-foot long apparatus, two stories high, provides several methods of either summer or winter air conditioning. The apparatus is the most complete of its kind.

Another provision for year-around air-conditioning study is a huge insulated room containing a complete portion of a house. Within this room, which has cork walls eight inches thick, coils and fans can produce winter conditions as cold as 5 below zero or summer as hot as 110 above.

With these conditions produced at will and maintained for as long as desired, the research men can make careful and accurate studies of either heating or cooling within the room of the house portion.

Says Coal, Oil and Gas

Will Last for 100 Years

STATE COLLEGE, PA.—The United States need not worry about a shortage of coal, petroleum and natural gas for "at least another century," even at the present wasteful rate of consumption, according to Dr. Frank C. Whitmore, dean of the school of chemistry and physics at Pennsylvania state college.

The present supply of hydrocarbons "is sufficient for a time long enough for our chemists to devise new ways of supplying them when they are naturally exhausted," he said.

Nature required "millions of years" in the manufacture of coal, natural gas and petroleum, and man is using up the stored supplies at an increasingly rapid rate, Doctor Whitmore said.

"In many cases," he added, "he is wasting them as well as using them. Fortunately, less natural gas is being wasted now than formerly."

"Perhaps one of the biggest wastes of hydrocarbons is in imperfect combustion of automobile engines. They burn much gasoline only partly, giving the poisonous carbon monoxide instead of carbon dioxide, which is a product of complete combustion."

Gang Center of Chicago

Is Playground Area Now

CHICAGO.—Chicago's "Little Hell," where 42 men were slain in 18 months two decades ago, is a paradise for youngsters today. Softball, baseball, boxing and bowling have replaced shotguns and stilts.

"Death Corner," hub of "Little Hell" by virtue of its high death rate, has lost its reputation in the Chicago avenue police station. But Captain Tom Harrison remembers when the half square-mile on the Near North Side was the hotbed of unsolved murders instead of the home of Seward Park, Ely Beach and numerous playing fields.

"It's all been changed now, even the names of the streets," he said. "And the greatest change has been brought about by doctors and lawyers. They have substituted active sports clubs for the street gangs that formerly provided training in car-stealing and petty thievery."

The Black Hand was the terror of the district during the days in the bootleg trade after prohibition. The young fellows once recruited to fill the gaps in the gunmen ranks are now more interested in Joe DiMaggio than in Al Capone.

Children Tagged
YOUNGSTOWN, OHIO.—Police decided that there had been too many missing children—lost or strayed from their parents—at parades here. So they tried out during a parade the system of "tagging" all Youngstowners. It succeeded.

Hudson's New Airfoam Cushion

Part of the secret of Hudson's new ride is shown in the Airfoam seat cushion and spring design (patent applied for). This new cushioning material, used up to now in deluxe

airliners, crack streamline trains, mattresses in leading hospitals and a few makes of costly furniture, is brought to the American automobile for the first time by Hudson.

COAST ROOKIE SOLD

Bill Lillard, 21-year-old rookie of the San Francisco Seals, recently sold to the Philadelphia Athletics in a deal involving exchange of another player. It is Lillard's second season in organized baseball, having played only 30 games in the coast league. He started with Tucson of the Arizona-Texas league where he was a sensation at shortstop.

Lion Dog of China Name Given to the Pekingese

The Pekingese was known for hundreds of years as the Lion dog of China. He is to be seen in paintings, ceramics, bronzes, and richly colored textiles, adorning fans and boxes and gongs. He is an artistic inspiration, a symbol of religion and rule, an animal revered in the Purple Forbidden city even more than the sacred cat in ancient Egypt.

We can conceive no resemblance between a Pekingese and a lion, observes a writer in the Chambers' Journal. Such a conception seems absurd. It is absurd except to the imaginative mind of the Chinese, who, anxious to confer every possible and impossible honor upon that dog, went so far as to associate him with the king of beasts.

Pekingese dogs lived in the Forbidden city. Eunuchs fed, washed and exercised them.

It was at one time the custom in China, to kill unwanted female babies, and some of the unfortunate mothers were compelled to suckle Pekingese puppies. Is it mere fancy that makes many lovers of that breed claim to see something human in the Pekingese?

Hippopotamus May Weigh As Much as an Elephant

The common hippopotamus (often called "hippo," for short) weighs about as much as the Indian elephant, but is not so heavy, on the average, as the African elephant. A big hippo may weigh four tons. Sometimes hippos are captured on land at night, with the help of traps. The flesh is good to eat, the tusks are valued for ivory, and the hide is used in making whips.

Armed with spears and an iron harpoon, the natives chase the animal in a canoe, writes a correspondent in the Portland Oregonian. When the harpoon is hurled the hippo makes a sudden leap. The hunters play out a long rope, in much the same way a fisherman plays his line for a game fish. This opens a battle which may or may not prove "merry." Down the stream at full speed dashes the hippo, towing the canoe with great ease. Sometimes the angry beast turns around, attacking the boat and upsetting it. That is a signal for the hunters to dive. In other cases the hippo swims into shallow water. Then the natives jump out and do their best to finish the fight with spears. If they succeed, they obtain many hundreds of pounds of meat for the tribe.

When Men Were Chinless
Man required about 50,000 years to develop a chin, scientists say. The Piltdown man, believed to have lived from 100,000 to 150,000 years ago, and the Heidelberg man, who may have lived 300,000 years ago, were chinless.

Workmen's Compensation
The oldest known attempt to provide workmen's compensation is the agreement, in a Roman district, that a vine trimmer killed in his work must be given a funeral pyre and grave by his employer.

Beet Next to Potato as Food
The beet is more nutritive and wholesome than any other cultivated root except the potato.

Southwest's 'Kivas' Closely Guarded
"Kiva" is the name given to the secret ceremonial chamber which from prehistoric times has been the most important feature of every Indian pueblo in the Southwest. At least a score of pueblos, or villages, occupied by the descendants of the "hohokam," "those who have vanished," flourish in New Mexico. In each the kiva is scrupulously guarded from white visitors. Caucasians have access, however, to the ancient kivas in the prehistoric ruins of the Southwest.

Composed of Many Municipalities
Montreal, one of the world's greatest ports, is composed of some 30 municipalities located on an island more than 1,000 miles up the St. Lawrence from the Atlantic ocean. From the island's one mountain, Mount Royal, may be seen the hills of Vermont 86 miles to the south.

Source of Expression 'Subrosa'

In literature, both ancient and modern, no other flower figures so conspicuously as the wild rose. Poets have delighted in singing the praises of these wild flowers. The early Romans elevated the wild rose to a prominent position in their customs. To them it had special significance when placed over the door of a building or the entrance to a private dining room. Every one who passed beneath the rose was obligated to disclose nothing that was said or done within. From this unusual and interesting custom has come our expression "subrosa."

Howth, Suburb of Dublin
Howth, a suburb of Dublin, Ireland, lies closely under the hill of Howth and commands a good view of Ireland's Eye and Lambay islands.

Indians' Flood Protection Plan
Before white men came to the Mississippi valley, Indians protected themselves from floods by erecting huge earthen mounds with flat tops on which they lived during high water.

How Islinglass Is Made
Islinglass is a gelatinous substance obtained by cleaning and drying the swimming bladders of the sturgeon and allied fishes.

HICKORY

Both the Grade and High school pupils had a vacation on Monday of this week when the teachers attended the meeting at Evanston.

Miss Wanda Lain and her pupils enjoyed the Halloween party at the school house Saturday evening. The children wore costumes. They roasted marshmallows over a bonfire on the grounds and had a jolly good time.

Mr. and Mrs. Max Irving and Mr. and Mrs. Emmet King attended the funeral of Miss Blanche Eddy in Waukegan, last Wednesday.

Miss Grace Wells helped her aunt, Mrs. John Stevens, celebrate her birthday at her home on Sunday, with a dinner for several of her friends.

Mr. and Mrs. George Olsen of Waukegan visited the Max Irving family Sunday evening.

Mr. and Mrs. Will Thompson and Helen visited the George Thompson home in Zion Sunday afternoon.

Miss Anna Drom and several of her scholars (the baseball boys) visited Hickory school one day last week.

Frank Salisbury of Waukegan called at Max Irving's Sunday afternoon.

Mrs. Sigurd Nelson of Fox Lake

road entertained her mother, Mrs. Hilda Wilton, at her home on Sunday with a birthday dinner.

Mr. and Mrs. Roy Heydecker of Waukegan visited the John Crawford home Friday afternoon.

Mr. and Mrs. Spencer Howe of Zion were Sunday dinner guests at the John Crawford home.

Michigan's Early Settlers

Long before the white man came to Beaver Island, Mich., long before the Indians found the Lake Michigan islands to their liking, prehistoric man had settled upon Beaver Island. The French of Champlain's colony at Quebec were at Beaver Island before the Puritans reached Plymouth or the Dutch New York. When they arrived, about 1650, they found gardens and farms laid out.

Birds Once Had Teeth

The old expression "As scarce as hen's teeth," wouldn't always have been true . . . in ancient times certain birds, now extinct, had teeth—and plenty of them.

Arizona's Capital

The Arizona capital has been at Fort Whipple, Prescott, Tucson, Prescott again, and finally Phoenix.

Early-Day Stage Coaches
Stage coaches began operating on regular schedule between Philadelphia and Boston in 1782.

Made Tree-Ring Discovery
Leonardo da Vinci observed that tree rings record variations in climate.

Length of Palace of Versailles
The length of the Palace of Versailles is more than a quarter of a mile.

Teutons Converted in 1000 A. D.
The Teutons of north Europe resisted Christian conversion till about the year 1000 A. D.

PUBLIC SERVICE COMPANY OF NORTHERN ILLINOIS

WILMOT

The last home game of the season will be played by the high school football team at Wilmot Friday afternoon at 3:15 against East Troy. Wednesday, Nov. 2, the team went to Waterford to play the school team there.

Rev. E. Kistler, of Salem, accompanied Mrs. David Kimball to Elkhorn Wednesday to visit David Kimball at the hospital there.

Bobby Rudolph is recovering from an attack of tonsillitis.

Louis Gandt, Jr., had his car badly damaged Tuesday when it turned completely over as he was making the turn from a black topped road to the state line road on the southeast side of Twin Lakes and ran into loose gravel. The occupants of the car, Mr. Gandt, Lloyd Voss and Fred Fisher, were uninjured.

The Wilmot Volunteer Fire department held their regular business meeting at the Fire house Monday evening.

William Lake is under the care of Dr. Bratrude of Antioch for a severe scalp cut received when he was thrown through the windshield of Paul Gonzlin's car in an accident on highway 83 Saturday. A car passing an auto parked on the highway forced the Wilmot driver into the parked car.

Mrs. Edith Faulkner entertained Mrs. Edith Thompson and Mrs. Chester Stevens of Spring Grove for the day Wednesday. Mrs. Thompson will leave shortly for Oak Park where she will spend the winter months.

Marlin M. Schurr, principal of the Union Free High school underwent an emergency appendectomy at the Kenosha hospital, performed by Dr. Gilbert Swartz, Saturday afternoon.

Mr. and Mrs. Charles Rasch entertained Sunday for Mr. and Mrs. William Krueger, of Lake Geneva, and Mr. and Mrs. Walter Rasch and daughter of Slades Corners.

Mrs. Clifford Rasmussen and daughter, Barbara, returned Sunday from a week's visit with Mr. and Mrs. Don Herrick in Chicago.

Mr. and Mrs. Frank Kruckman were guests of Mrs. C. Schmidt and Louise Schmidt in Milwaukee on Sunday.

Mrs. H. C. Darby has moved to Kenosha to make her home with her son, John Hasselman.

Mr. and Mrs. Ray Rudolph and Bobby were dinner guests Sunday of Mr. and Mrs. John Peterson at Randall.

Mr. and Mrs. Harry McDougall were in Delavan, on Sunday.

Sunday there will be German Reformation services, with communion, at ten A. M. at the Peace Evangelical church. Prof. John Meyer of the

Chevrolet Takes Big Strides Ahead for 1939

New Aero-stream styled bodies combine with major mechanical improvements to provide new beauty, safety, comfort and operating ease, in the 1939 Chevrolets, presented October 24, and featured at the big auto shows this month. The new models are offered on two chassis, the Master De Luxe and the Master 85, both of which are powered with Chevrolet's famous six-cylinder valve-in-head engine.

A new vacuum gear shift mechanism with steering column control, optional on all models at small extra cost, does 80 per cent of the work of shifting gears. The Master De Luxe series features a new riding system, in which a brand new Chevrolet Knee-Action mechanism is scientifically co-ordinated with new ride stabilizer and double-acting hydraulic shock absorbers to furnish a smooth, soft ride.

Central picture is the new Master De Luxe Sport Sedan. Upper right: front end view of the 1939 car; Upper left: Master De Luxe front suspension unit, complete; Lower left: accessibility and finger-tip ease of operation are two major features of Chevrolet's vacuum gear shift, with steering column control; Lower right: As the handbrake on all models is re-located under the cowl, front compartment floor is cleared in cars with vacuum gear shift.

Lutheran Theological Seminary at Thiensville, will conduct the services.

Mr. and Mrs. Henry Vogel moved into the Mattern home on Saturday.

Mr. and Mrs. Herman Frank and family were guests Sunday of Mr. and Mrs. Frank Zarnstorff, of Richmond.

Mrs. William Hamm, Mrs. Flavia Ehlert and family, Mrs. Oliver Balza

and son were in Burlington for the day Saturday.

Anna Marie Carey, Twin Lakes, is spending several weeks at the Carey home.

Mrs. Jessie Paige, Harold Paige, Evanston, and Miss E. Nelson, of Winnipeg, Canada, were guests Sunday of George Hyde.

Mr. and Mrs. C. M. Andersen, of Milwaukee, are spending this week with their daughter, Mrs. M. M. Schurr.

Mrs. Ray Ferry, Zion, spent the day Saturday with her parents, Mr. and Mrs. T. C. Loftus.

Mr. and Mrs. Roy Blood, Lilah and Birdino, of Lake Geneva, called Sun-

day on Mr. and Mrs. Ray Bufton.

The Holy Name church is to hold a card party in the church hall on Sunday night. The usual games will be played and refreshments served.

Mrs. Paul Voss and daughters, Virginia and Avis, spent Saturday in Kenosha.

Mr. and Mrs. Clinton Voss and Fred Fisher are leaving Tuesday for Dun-dee, Florida, for the winter months.

U. F. High School

The foot ball team from East Troy defeated the school team on the home grounds Friday afternoon, 13-12. The final game of the season will be played at Waterford on Wednesday afternoon.

Schools in Wilmot will close Wednesday night to permit the faculties to attend the State Teachers' Convention at Milwaukee.

Socialite Talks Ranch Language

Speaks to Cowboys in Their Own Tongue; Assumes Foreman's Job.

SAN FRANCISCO.—Perfection in the use of ranch language and in a manner to make a real rancher sit up has enabled Mrs. Roma Ware, New York, Paris, Pebble Beach and Del Monte socialite, to make a success of a 3,000-acre sheep ranch in Nevada, she admitted in a recent visit here.

Furthermore, Mrs. Ware, formerly Mrs. Henry H. Wehrname of New York, declared she was getting the "kick" of her life out of it. "It's a hard life," she admitted, "but I love it. And the natives are marvelous. I have the deepest sympathy for these ranchers who gamble year after year with the harsh elements of Nevada. They are real people."

Ranch Talk a Necessity. But to make a ranch succeed, Mrs. Ware asserted that you have got to learn to talk "ranch talk" and talk it in a manner that will make things hum.

"I'm learning to talk rough enough now to make the ranch go," she admitted. "You know that it's the language that counts."

"I used to be a lady and say, 'Henry, what are you doing?' But now I stand back and shout, 'Henry, what the — are you doing?'"

"Then, too, I am beginning to know the difference between a cow and a steer."

Mrs. Ware bought her ranch just after winning a divorce at Reno. The ranch is 32 miles from civilization, "if that is what you call Reno," she said, "and is located near Lake Pyramid."

"I couldn't even spell 'alfalfa' when I bought the ranch," Mrs. Ware declared.

"However, I had a San Francisco architect build me a house of pink-tinted canyon rock, the finest house he has ever built, and with a veranda all around it. From there I can watch the boys work in all the corral. They hate it because I have binoculars and can watch them all the time to see if they work properly. They call me 'old battle ax.'"

Is Her Own Foreman. "I am thinking even of installing a loud-speaker so that I can scare the life out of them by suddenly bellowing to some loafing worker."

Mrs. Ware is her own foreman. "I couldn't find a competent foreman," she said. "I found I was paying men to learn. So I decided I'd take over the job myself."

Mrs. Ware boasts of the fact that she has a police badge from the Reno police force, a deputy game warden's badge to keep people from shooting sage hens and possesses an amazing collection of gadgets, including spring tooth harrows, tractors, graders and angle dozers.

"I'm a first-rate 'cat skinner,'" she said, "and every time I see a new government road equipment I look it over for a new gadget for my ranch. I grease my own tractor and I planned my own irrigation system."

"There is only one thing left for me to learn, and that is how to roll my own cigarettes."

Violins Oust Pencils in Ontario Kindergartens

LONDON, ONT.—Pupils in seven city kindergartens will learn to handle a violin before they become well acquainted with a lead pencil, it was revealed in the announcement that the London board of education has increased the number of its "quarter-sized" instruments to 33.

The addition of the "baby violins" is part of the program to extend musical activities in the primary schools of London. Mindful that more than 1,800 persons attended the minor recitals given by school children last year the musical department will double the number of recitals. E. W. Quantz, music director, has announced.

Indications are that the number studying in instrumental classes will be increased almost as much as they were last year when 569 students took lessons. This was a 25 per cent increase in the number registered the preceding year.

The board of education owns more than 300 musical instruments and gives courses in vocal music as well. Little children practice their violin lessons on the quarter-sized instruments. Last year courses were given for the kindergartens at Ryerson, Lady Beck and Ealing schools. The names of the schools which will be added to the list this year have not yet been announced.

Lights of New York

by L. L. STEVENSON

The more I go down to the tip end of Manhattan, the more Battery park intrigues my interest and excites my fancy. The marine panorama is never the same. It varies with every hour of the day or night. It is a truly moving picture. The harbor is never still. Along in the thin hours of the morning, the passing of lights here and there on the dark waters may be only occasional. But the harbor is not still. It is not still at dawn, at high noon or when the lights of the office buildings of Manhattan go out or shine only for scrubwomen and porters. The work of the harbor never is done. It continues 24 hours a day. And so far as I have learned, there is never an hour but that it is worth observing.

Dawn is greeted with whistles. Tugs come out in fleets. They always seem to be in a hurry, churning along with a white bone in their teeth. The big ferries begin bringing over Staten Island residents along with loads of fresh vegetables from the gardens of the borough of Richmond. Or perhaps from New Jersey by the way of the Kill von Kull bridge. Coast guard sailors start polishing up the government cutters that take customs men, immigration officials, newspaper men and others down the bay to meet liners. Smoke curls lazily from the stack of the Ellis island ferry. The funny little Governor's island ferry starts its trips between the military reservation and the mainland. Dredges, pile drivers and other work boats go into action. The harbor comes to life with a rush.

Along about 9 a. m., liners start coming up the bay. As they leave the Narrows, they look like stately white clouds. Suddenly they change to ships. Ships with white sides and glittering brass, with huge funnels spouting smoke streamers. Almost always the rails are lined with passengers. Home-comers and visitors. All eager for the Statue of Liberty and a close-up view of the famous skyline of New York. There is much whistling, for a big liner doesn't have a great deal of room in the harbor traffic. Smaller craft scurry out of the way and the liner passes slowly with all the majesty of a monarch. Watching the incoming liners from Battery park to me is better than any stage production. It isn't a one-way picture either. Hardly have the incoming liners docked then those outbound leave their piers and creep down the Hudson into the bay and then speed out to sea.

Every kind of craft that will float passes Battery park. Every kind of ship from the humble cargo carrier to the queens of the sea. Every private boat from extremely small ones propelled by the strength of human arms to the big yachts of Morgan or Astor, craft that can go around the world without refueling. As for the work boats, they range from scows to floating factories and from barges to grain elevators. There is even the suggestion of Noah's ark in some of the barges. Animals of various kinds form the cargo. Animals on their way to slaughter. Animals that let their presence be known by moos, baas, squeals and grunts.

Saturday night is the busy time at the Battery during the summer months. Various excursion boats depart from there. The Sandy Hook and Atlantic Highland boats. The excursion steamers that go up the Hudson. The boats for Rye and other beaches. The crowds are gay and colorful. The competition of the ticket sellers is hot. Venders do a heavy business. But whether Saturday night, or any other time, the Battery to me is attractive. So attractive, I think I'll sneak down there right away.

Times Square eavesdropping: "He's the kind of a guy that tosses a nickel to a beggar and expects a \$10 credit in Saint Peter's books."

© Bell Syndicate.—WNU Service.

Houses of Glass Are Now Rapidly Nearing Reality

TOLEDO.—The glass house, a few years ago a dream of the distant future, today is almost a reality, according to an architectural survey made under the direction of John D. Biggers, Toledo glass manufacturer, who also conducted the national unemployment census for the federal government.

Houses built during 1938 are estimated to contain double the window area of those erected a generation ago, the survey reveals. One company alone produced 10 square miles of flat glass last year, more than two square feet for every man, woman and child in the country.

The increased use of glass has made the art of "bringing the outdoors in" a dominating note in modern architecture. "Picture windows"—windows of plate glass built especially to frame a desired view—are component parts of homes being designed today, the report says. Recent perfection of structural glasses like vitrolite is extending the interior use of glass too. This new type of glass is being used to make gleaming, cheerful all-glass kitchens, the report continues.

Woman Runs Circus. ADELAIDE.—Australia's biggest circus, the Wirth circus, is managed by Miss Doris Wirth.

Can Print Bible In Just One Day

U. S. Government Runs Biggest Printing Plant In the World.

WASHINGTON.—The world's largest printing plant is operated in Washington by the United States government on a 24-hour schedule to print the vast amount of material for publication required by the centralization of government in Washington.

More than 70 daily, weekly, and monthly publications with a total circulation running into the millions are regularly printed in this huge government plant and distributed over the nation.

It has been estimated that a book the size of the Bible could be printed in the government printing office in 24 hours.

This printing and publishing division put out a total of 5,000,000,000 copies of various "job" publications during the last year.

Boss Is Printer. This number is vastly in excess of quantities printed before the administration of President Roosevelt. This number does not include issues of regular monthly and weekly publications such as weather bulletins and copies of the Congressional Record.

At the head of this tremendous printing organization is a practical printer, Augustus E. Giegengack, whose title is public printer.

Giegengack gets every bit of printing desired by any department, bureau, or division of the government. The government divisions are required by law to hand over all of their printing to Giegengack and his printing office.

There is only one exception to this—the Supreme court—which for many generations has had its printing work done at a small private printing shop in the downtown section of Washington. There the decisions of the court are secretly and carefully set up in type and printed in such a way that no single typesetter or printer ever knows the contents of the decisions.

Employees of the government printing office likewise are bound to silence and secrecy, but details of confidential publications occasionally leak out through "sources" in the government printing office.

It Covers 22 Acres of Floor. This printing establishment employs 5,500 printers, typesetters, photo-engravers, mechanics, clerks, and other workers. Its annual pay roll amounts to \$12,000,000. It occupies 960,030 square feet of space, which is the equivalent of 22 acres.

The government printing office was established in 1861 and it has expanded rapidly ever since. It is by far the largest printing establishment in the world, with 408 typesetting and casting machines setting approximately 2,500,000,000 ems (units) of type annually. There are approximately 200 complete printing press units.

Among other things this printing office prints postal cards for the postoffice, 2,000,000,000 in a single year.

The printing office is geared to do high speed work as well as regulation printing. During sessions of congress the daily record of what happens is printed over night and is mailed and distributed in time for use the next morning.

The printing office charges each government division the cost price for printing. The plant makes extra charges for rush work.

Cascades Park Is Added To Nation's Playgrounds

SEATTLE, WASH.—To the nation's sylvan playgrounds will be added 4,272 acres of primitive timberland in the snowcapped Cascades, near Snoqualmie pass, as a result of acquisition of the area by the United States government.

Creation of the park, with its giant trees and singing icy mountain streams, will be a monument to the ceaseless work of J. C. Kuhns, assistant regional forester, United States forest service.

Kuhns was captivated by the enchanting region while supervisor of the Snoqualmie National forest and when destruction of virgin Douglas firs and cedars, hemlock, spruce and yew was threatened four years ago he headed a movement to save the timber.

Aided by Asahel Curtis, noted for his work in saving the state's trees and scenic beauty spots, and by numerous civic and conservation groups, Kuhns quietly negotiated for deeds to the land from private owners, the government giving property of equal value elsewhere in exchange.

Tale of Four Bottles Crew Cast Into Ocean

BOSTON.—Four sealed bottles cast overboard by the crew of the schooner Effie M. Morrissey in 1936 were picked up on the shores of Norway nearly two years later.

A bottle recovered at Hjelmsoy traveled 4,100 miles, one found at Flatanger, 3,500 miles, one at Vest Vaago, Lofoten islands, 3,700 miles and the fourth at Soro island, 4,000 miles.

Liverpool Has Romantic Touch

Geography has played an unmistakable part in shaping Liverpool's destiny. The city is situated only three miles from the Irish sea on the north bank of the tidal Mersey river, which ranges in width from a mile to three miles and extends inland far enough to provide safe anchorage for ships. King John founded the town early in the Thirteenth century, but it developed slowly until America was discovered. Liverpool engaged in the slave traffic, and its bold seafarers also played an active part in the romantic days of smuggling rum, sugar and tobacco. But the port's real prosperity dates from 1840, when Samuel Cunard inaugurated regular steamship service between the Old world and the New.

Mud Skipper, Land Fish

The mud skipper, or bommal, actually spends most of its time on land. These strange creatures are found in Asia, Africa and Australia. They stay in the water only when breeding; once matured, they live on the warm sand, or even climb the mangrove trees. Their breast fins are almost arms, the extremities having webbed fingers which facilitate walking and climbing. The fish's prominent eyes are set high on the head and can focus in almost any direction.

Old-Timers Had Trade Secrets

In early times cities strove with each other for the leather trade, as they did for the lace trade, when hand-made lace was in great demand at fabulous prices. Tanners were encouraged to find new processes by which a fine new leather could be produced. The formula was kept secret and the product was put upon the market under the name of the city in which it was produced. Thus trade secrets are as old as industry and tanning is among the oldest of industries.

Amount of Blood in Body. The average normal human body contains from one gallon to one and a fourth gallons of blood. A gallon of blood weighs about eight pounds. Fat persons have relatively less blood than lean ones.

Almanac a Big Seller. Poor Richard's Almanac, published by Benjamin Franklin for 25 years, sold 10,000 copies annually.

Removed White House Bathtub

When Andrew Jackson was President he had a crude bathtub removed from the White House which Dolly Madison had installed there, and it was 22 years later before another one was put in. It was installed there for President Fillmore, who was noted for his neatness and his cleanly habits, and whose wife introduced the bathing practice in the executive mansion as a preventive against malaria, then prevalent in Washington.

Many Mountains in Vermont

In the comparatively small state of Vermont there are more than 900 mountains with summits 2,000 feet or more above the sea. Many of these mountains are accessible by motor, notably Mt. Mansfield, highest in the state. From this lofty peak, 4,393 feet high, views of the Green mountain range may be enjoyed. Lake Champlain, 30 miles away in New York state, is clearly in view for much of its expanse.

Capital of Kingdom of Kashmir

Srinagar is the capital of the native kingdom of Kashmir in the northern extremity of India. In the picturesque scenery of the surrounding country was located the Vale of Cashmere, celebrated in Moore's "Lalla Rookh."

MARY McCORMIC WINS FRIENDS IN CONCERT HERE

Mary McCormic's vibrant personality and lovely soprano voice won her many new admirers in the concert she gave under the auspices of the Antioch High school girls Tuesday evening in the well-filled school auditorium.

Two of her most appealing numbers were "Si mes vers avaient des ailes (If My Songs Had Wings)," Hahn, in a group of French songs, and an ancient Irish air, "Cockles and Mussels." Her singing took on an almost unearthly beauty in the latter number.

She opened her concert with an Italian group, "Stornellatrice," Respighi; "La Serenata," Tosti, and, by special request, "Poor Butterfly's" aria from Puccini's opera, "Madame Butterfly."

Does "Modern" Piece

Included in her French group were a very modern little number from "Algers," depicting camels crossing the desert, and Massenet's "Ouvre tes yeux bleus (Open Thy Blue Eyes)," "Girotonna," by Sibella; "Coming Home," the well-loved song by Wilbur; "My Love is a Muleteer," Di Noguero, and "Gypsy King" closed the concert.

The gifted young pianist, Aron Leifer, provided her with unobtrusively excellent accompaniments.

Tri-School Girls' Meet Program Is Announced

Mrs. Edith Flint, Professor Emeritus of Chicago U., Will Be Speaker

Antioch Township High school, which started the annual Tri-School Girls' conference four years ago, will be hostess to this year's gathering, on Saturday, Nov. 5.

Two hundred and fifty girls, from Warren, Libertyville and Antioch High schools, are expected to attend.

Committee chairmen include Betty Lu Williams, in charge of the music program; Mildred Horan, in charge of decorations; Jean Brett, program, and Frances Beimer, luncheon.

Yvonne Jensen and Caroline Phillips will be group leaders.

Deans of the gathering will be Miss Helen Exley, of the Warren High school faculty; Miss Margaret Jorgensen, of Libertyville High school, and Miss Cornelia Roberts of Antioch High.

Autumn colors will be employed in the decorations.

Invite Mothers

Mothers and friends of the girls are being invited to hear the principal speaker at the conference, Mrs. Edith Foster Flint, professor emerita of English at the University of Chicago. Mrs. Flint's talk will be given at 10:30 o'clock.

A large attendance was present at the first meeting of the Antioch High School forum, held Thursday evening, Oct. 27, in the school auditorium.

10:30 o'clock, and is entitled, "We Want Culture!"

Janice Kapple, Antioch, is president of the conference. Hazel Getchel, Libertyville, is vice-president; Betty Werhberg, Libertyville, secretary, and Eileen Snyder, Antioch, treasurer.

Plan "Donkey" Basketball Game Nov. 10 as Benefit

"Donkey basketball," called by newsreelers "the most laughable sport novel ever originated," will come to Antioch Thursday evening, Nov. 10, when the Lions' club and the Antioch Township High school will sponsor a game in the school gymnasium at 8 o'clock.

The event will be a benefit for the high school basketball team, and proceeds will go toward the purchase of new uniforms.
